## Still Try to Bribe Chief of Police First Claims Against A.&C. Filed

### FIRST CLAIM IS READY (AGAINST THE ALBERTA AND GREAT WATERWAYS) TO FILE WITH THE GOVT.

**T. K. Wright of Edmonton  
Will Ask for \$4000  
Owing Him—Dr. Mc-  
Innis Has Claim Too**

T. K. Wright, of Edmonton, who cut 20 miles of right of way for the Alberta and Great Waterways railway during the past summer and fall, and who was never paid for his contract by the railway company, will be the first contractor to file a claim with the provincial government for the payment of his contract, in view of the cancellation of the Waterways contract.

Mr. Wright reached the city last night from the north and will file his claim with the government, either today or tomorrow. The claim, it is understood, amounts to something like \$4000.

Another claim which will be filed shortly is that of Dr. McInnis, of Edmonton, for payment of \$2000 due him on his contract for the supply of ties to the railway company. Dr. McInnis' company, the Empire Supply company, cut a large number of ties on the right of way to the north of the city, letting sub-contracts for the work to Campbell and Brown of Edmonton. It is stated that none of this work has been paid for by the railway company.

The claims which are to be filed with the government cannot be settled until the legislature meets in the fall, the government merely having power to investigate the claims and recommend their payment or non-payment to the legislature at its next session.

### WILL EXPLOIT ASPHALT BEDS New Company is Formed in Edmonton—J. H. Gariepy is President

For the purpose of exploiting large asphalt claims at Fort McKay, north of Fort McMurray on the Athabasca river, a new company has been organized in the city with J. H. Gariepy as president.

The organization of the company has just been completed, and the announcement, given to the Capital this morning, that the company has 1000 acres of asphalt claims at Fort McKay and have opened up a new block. The officers of the company are J. H. Gariepy, president; A. Violette, general manager and treasurer; and S. Menzies, formerly the manager of the Starland theatre, as vice-president and secretary.

### WOMAN CAME OUT ON WINTER TRAIL

Made Trip in Nineteen Days  
Travelling—Parties Laden  
With Bullion

Seward, Alaska, Dec. 20.—Seven persons, including one woman, the first to come over the inland trail, arrived yesterday from Innoke and Iditarod districts having made the trip in 19 days actual travelling time. The party reports that more than five hundred people are going over this winter trail, bringing several hundred thousand dollars in bullion. Several consignments of gold from the Iditarod district for Seattle banks have already been dispatched by dog sleds.

### BIG FIRE IN ST. PAUL

St. Paul, Dec. 20.—The Howard store-house, Eagle street, below Heaven corners, was locally destroyed by fire at an early hour this morning. The loss is \$50,000. Two women injured, one perhaps fatally, and one policeman.

### WHAT THE CHARTER SAYS

Speaking to a Capital representative this morning Assessor McMillan stated that in view of the way the charter now reads he will be compelled to collect a \$3 tax from every household which makes application to be put on the voters' list.

The charter provides that any person who has been in the city prior to the first day of February in the year in which the voters' list is compiled, shall be classed as a household, and that upon showing a receipt for \$3 paid as a tax the assessor shall place his name on the voters' list.

### HOW CARNEGIE MAKES GIFTS Total Benefactions of Steel King Amount to \$180,000,000

### A UNIVERSAL PLAN

John D. Rockefeller Left Far Behind  
in Race of Scattering Around  
the Millions

Washington, D.C., Dec. 20.—Details of the endowment of \$100,000,000 by Andrew Carnegie for the abolition of war show many interesting details. The formal transfer was made at a meeting at the rooms of the Carnegie Research Foundation. The trustees organized by choosing as president United States Senator Elihu Root, the permanent representation of the United States at The Hague Peace Tribunal. President Taft has consented to be honorary president of the Foundation.

Left to Trustees  
The method by which the annual income of half a million dollars which he expended is left by Mr. Carnegie entirely in the hands of the trustees. The Foundation is to be perpetual and when the establishment of universal peace is attained the donor provides that the revenue shall be devoted to the banishment of the "next most degraded of evils," the suppression of which would "most advance the progress, elevation and happiness of man."

His Great Gifts  
Andrew Carnegie's gift of \$100,000,000 for the furtherance of international peace brings the total of his benefactions to something like \$180,000,000. Carnegie's foundation announced today is second in size to only three others of his—the \$100,000,000 fund for the advancement of teaching, made in 1915 and increased to \$120,000,000 in 1908; the \$100,000,000 endowment to the Carnegie Institute at Pittsburgh; and the \$100,000,000 fund for the establishment of the Carnegie Institute at Washington. Mr. Carnegie's gifts to libraries during the past twenty years are estimated at \$100,000,000 for the United States and \$17,000,000 abroad.

List of Benefactions

Following is a list of the largest known benefactions.	
Libraries—	\$3,000,000
Education—	15,000,000
Pittsburgh Institute—	10,000,000
Washington Institute—	10,000,000
South American—	10,000,000
Scottish universities—	10,000,000
Hero funds—	5,000,000
Carnegie steel—	5,000,000
Employees—	5,000,000
Dunfermline endowment—	5,000,000
Politechnic school, Pitts- burgh—	2,000,000
Peace Temple at The Hague—	1,750,000
Allied Nations—	1,500,000
Bureau American Repu- sation—	750,000
Small colleges in U.S.—	20,000,000
Miscellaneous in U.S.—	20,000,000
Miscellaneous in Europe (estimated)—	2,500,000

Total—\$179,500,000  
Mr. Carnegie's latest endowment widens the gap between him and John D. Rockefeller, who alone rivals the retired steel master in his public benefactions. A conservative estimate places Mr. Rockefeller's gifts to institutions at \$120,000,000. All but small part of this for educational purposes.

### THESE BANK DEPOSITORS SO VERY PHILOSOPHICAL

Toronto, Dec. 20.—Latest word from the victims small towns throughout Ontario where the Farmer's bank had branches, fails to indicate anything in the nature of a panic among the depositors. Quite a large amount of stock was sold in the vicinity of Athens, Ont. These people are mostly farmers and are very anxious for fear they will be ruined. The local offices were all constructed to close for ninety days but have no information as to the cause of suspension. The wonder of the situation is the philosophical manner in which the depositors and creditors received the news.

### 3 JASPER DEALS NET \$115,500

Records Created in Sales  
Made This Morning—Vic-  
toria Hotel Property  
Sold

Three big deals in Jasper avenue and First street, business property, were concluded this morning by the Northern Investment agency, deals which totalled \$115,500, and were practically completed within 24 hours.

The biggest involves the sale of the Victoria hotel property, 50 feet frontage, meet the new Union bank building on Jasper avenue, from S. Larue, owner to Jean Revillon, of the firm of Revillon Bros., for \$25,000 or about \$1500 per foot. Mr. Revillon has not announced his intentions in connection with the property, but it is possible that a building may go up.

Another deal was the sale of a 50-foot lot in block 8, on the north side of Jasper, between Eighth and Ninth, for \$3000, a record price for property in that vicinity. The property was owned by J. H. Watt.

Another record price was created on First street, in the third deal, in which a 50-foot lot at the corner of Nelson and First, opposite the new market site, was sold by the owner, a resident in St. Paul, for \$10,500 cash.

C. McDonald was yesterday offered \$3000 for his lot close to the corner of Ninth street on the south side of Jasper.

### WOLVES ATE BODY OF CONTRACTOR

Remains of Neil Keith Found in  
Dirt Hills Torn by Raven-  
ous Beasts

Police Say He Suicided  
Detectives Suspected Foul Play  
But Mounted Police Accept  
Suicide Theory

Regina, Dec. 20.—Neil Keith the well known railroad contractor whose disappearance was reported some weeks ago, may have been the victim of a cruel and bloody murder. The theory is that the contractor committed suicide and that his body was consumed by wolves as it lay upon the prairie.

His clothing was found last week in a vacant shack some miles distant from the town of Forward, where Keith was last seen. They were badly blood stained, and detectives who were working on the case since the disappearance of Keith were of the impression that there had been foul play.

Word has reached the mounted police headquarters here from Yellow Grass that the body of the contractor had been found. There were no marks of violence as far as can be learned.

The body was covered by only a portion of the underwear and was almost unrecognizable. All the flesh was eaten from one arm, and also from a portion of the body and lower limbs. The remains were taken to Regina and are being examined.

### FARMERS ARE HAPPY

Given Assurances at Ottawa  
That Terminal Elevators  
and Chilled Meat Question  
Will Receive Con-  
sideration

### HUDSON BAY RAILWAY WILL BE GOVT. OWNED

Ottawa, Dec. 20.—The final conference between the representatives of the Western grain growers executive and Sir Wilfrid Laurier, Sir Richard Cartwright and Hon. Sydney Fisher was held today after which the following statement was given out on behalf of the representatives of the farmers:

"We have had several conferences with Sir Wilfrid Laurier and Sir Richard Cartwright on the terminal elevator situation, the result of which will be that legislation will be introduced in the house immediately after the recess dealing with this matter. The views presented on the situation based on the representations that we have made. We are unable to say whether the proposed bill will be satisfactory until it is introduced in the house."

Chilled Meat Question  
"The ministers gave us a very sympathetic hearing on the chilled meat proposition and admitted that some of the views presented on the situation affecting the marketing of stock were new to them. They promised to make full investigation into the circumstances surrounding the marketing of the stock. We have an assurance that the government will proceed to build the Hudson Bay railway and provide the necessary terminals at Hudson Bay without delay and that they would retain the ownership of both in perpetuity. The question of operation is left in abeyance for the time being. We recognized the reasonableness of Sir Wilfrid's public statement on the tariff that so long as negotiations were pending with reference to reciprocity no action would be taken on the tariff."

LIBERALS GAIN TWO  
The final standing now is:  
Liberals 271.  
Labour 17.  
Nationalists 73.  
Ind. Nationalists 11.  
Coalition total 394.  
Unionists 272.  
Net majority 125. This is a net gain of 50 for the Liberals, showing their majority in the last parliament being 124.  
Wick Burghs, Munro List, 1551; Bigford, Union 1304. Unchanged.  
London, Dec. 20.—Following are the last returns of the general election, which was brought to a close yesterday:  
Cork County West—O'Leary, Nat., 1065; Cichely, Ind. Nat., 220. Unchanged.  
Kilkenny South—Keating, Nat., 2125; Murray, Ind. Nat., 207. Unchanged.

### ANOTHER FORT GETS 2 YEAR TERM

Sentence was passed this morning in the district court by Judge Taylor on the case of the Fort William.

Menshi who was found guilty of stealing \$100 from the Commercial Hotel. Strathcona was sentenced to six months at the Fort with hard labor.

Barris, who pleaded guilty to the charge of uttering a forged cheque, was sentenced to two years in the Alberta penitentiary.

### MORE MONEY FOR THE CHILDREN'S AID

CHIEF OF POLICE WILL BE QUITE A PHILANTHROPIST  
IF AN ANONYMOUS DONATIONS CONTINUE—THIRTY  
DOLLARS THIS MORNING.

Chief of Police Lancy has of late been receiving more money than he knows exactly what to do with. Yesterday he received an anonymous donation amounting to \$30 and this morning he received another which consisted of one crisp, new twenty dollar bill and two more or less identical fives.

Speaking to the Capital this morning the chief said that he was glad the money was coming in as it was very improbable that the owners would find it if they did not it would all go towards swelling the Children's Aid fund.

### SAVE FIFTY MILES ON COAST TO COAST TRIP

Fort William, Dec. 20.—An important project is under contemplation by the C.P.R. management. This is the construction of a new connecting line between Nipigon and Sarnia, which will give a direct run across from the head of the lake, 60 miles northwest of Fort William to a point 72 miles to the southwest. It is estimated this straightening of the track will save from forty to fifty miles in consequence of the coast to coast traffic.

### LONE IRISHMAN BEAT 3 ITALIANS

Son of Erin Fought Italians in  
Montreal Lane and Knocked  
Them Unconscious

BAD WORD STARTED ROW  
And Patrick Turned and Fought  
Although One of Italians  
Had Razor

Montreal, Dec. 20.—Following a battle at the corner of St. David's street and St. James street between an Irishman and three Italians all four men were injured. The Irishman needed medical attention. Two had to be sent to the general hospital for repairs.

Lieut. Marwick, Chahollez street station, on receiving a message that a fight was in progress at the corner of St. James street and St. David's street, sent out constables Judd and Filtrault. On the way to the scene the constables met Patrick Shields, 26 years of age, with a gash in the back of his head and his right ear split. Shields, who had no home in the city, told the constables he was looking for a police station because three Irishmen were lying dead in a lane and should be removed to the morgue.

From what the police learn, Shields was passing along St. David's Lane when one of the Italians spoke to him. The Irishman resented the remark and the three Italians turned on him. One, armed with a razor, slashed the Irishman across the right ear and on the back of the head. Then followed the Irishman and the three Italians and hattered into unconsciousness by Shields.

### SHIP SAILS TO AID; NOW BOTH ARE LOST

Woermann Company's Sister  
Ships May Be Lost Off  
Canary Islands

TERRIFIC STORM RAGES  
One Was Seen in Distress Twelve  
Miles Off Shore—Now  
Both Gone

Las Palmas, Canary Islands, Dec. 20.—Alix is felt for the safety of the German liner Hamburg, which was last seen by the German liner Steamer Inghert and Irma Woermann. The latter vessel started out from here yesterday in a terrific gale and is believed to have been driven twelve miles off the coast displaying signals of distress and indicating that her engines had broken down. Since then no word has come from either of the liners and they have not been sighted by merchant vessels. It is thought they may have been driven northward by the fierce storm which is still raging today.

The German counsel here is aboard the Irma. Both of the Woermann steamers left Hamburg for London and West African ports.

### STONE FOR BUILDINGS

W. J. Carter Will Supply Two Cars  
of Stone for New Legislative Build-  
ings by Next Summer.

W. J. Carter, formerly of Edmonton, who has the contract from the provincial government for the supply of stone for the new legislative buildings, has from his quarries seventeen miles west of Calgary, was in the city yesterday in a terrific gale and is believed to have been driven twelve miles off the coast displaying signals of distress and indicating that her engines had broken down. Since then no word has come from either of the liners and they have not been sighted by merchant vessels. It is thought they may have been driven northward by the fierce storm which is still raging today.

Mr. Carter told the Capital that he expected to complete his contract with the government by the end of the year. He has already secured the stone required for the new building, by some time next summer.

The highest grade of sparkling cut glass has been ordered by the government. The home of smart clothes. Kelly & Moore's.

Picked patterns in neckwear. Kelly & Moore's.

Men's boots in all styles and for all purposes at Kelly & Moore's.

### JURY MUST PROBE THE BELLEVUE DISASTER

Attorney General's Department Has Issued Instructions  
That This Must be Done—New Jury  
Will be Chosen

The attorney-general's department in Edmonton, have issued instructions to the coronor's jury in the inquest into the Bellevue mine disaster, that a full and complete investigation must be made into the whole affair, in order to ascertain the exact cause of the explosion which resulted in the death of thirty-one miners, may be ascertained.

This was the statement given to the Capital this morning by Deputy Attorney-General Clarry, in the absence of Attorney-General Michell.

Despatches from Bellevue this morning were to the effect that a further investigation had occurred owing to the refusal of the coronor's jury to investigate any further than the actual cause of the death of the miners, on the ground that he felt incompetent to do so.

Deputy Attorney-General Clarry stated this morning that in view of this, a new jury would have to be appointed. He stated that it had been the intention of the department from the start that the whole affair should be investigated to the very bottom.

The miners at Bellevue have been demanding that a full investigation be made by the coronor's jury, and the attorney-general's department has decided that such an investigation must be made. An adjournment of the inquest has been made until a new jury has been appointed.

Bellevue, Dec. 19.—The coronor's inquest into the mine disaster of December 18th opened here today and after considerable evidence had been taken the jury reached a deadlock, being unable to decide upon the cause of the accident.

James Burke, secretary of the local union, says evidence that owing to a protest of the men he had wired Inspector Stirling on December 3rd, asking for an inquest today and after considerable evidence had been taken the jury reached a deadlock, being unable to decide upon the cause of the accident.

O. M. Biggar, of Edmonton, is appearing for the mine owners and H. M. Mackay, of Edmonton, for the United Mine Workers. Joseph Hudson, M. E. of the department of mines Ottawa, was present.

### \$100,000 STOCK PAVILION FOR NEXT YEAR'S EXHIBITION

BOARD OF DIRECTORS REACHED DECISION LAST  
NIGHT—APPLICATIONS FOR SPACE AT NEXT YEAR'S  
FAIR ARE ALREADY COMING IN.

The Edmonton exhibition association has decided to provide for the raising of about \$175,000. The meeting last night was well attended and the decision was made to ask the city to contribute \$100,000, which will be the market value of the land of a half acre and a building on the site.

This was the decision of a meeting of the directors of the exhibition held last evening, following the recommendation submitted by A. G. Garrison, secretary, that such a building should be built. Mr. Harrison gave a report of his trip east, on which he inspected the stock building at the fair, and advised the board that a building should be erected similar to that in Minnesota.

The erection of the building will be undertaken first thing in the spring, and the building will be ready for the next year's stock show, and will be a two more stock sheds, and the installation of a sewer system.

For the purpose of carrying out the plan, the directors will ask the city to contribute \$100,000 for the raising of about \$175,000.

The meeting last night was well attended and the decision was made to ask the city to contribute \$100,000, which will be the market value of the land of a half acre and a building on the site.

The prize list committee have also completed their work, and the prize list is nearly ready for the printer. It is several months in advance of former years.

### SWATER COATS Dr. Jaeger's Pure Wool Coat Sweater

Sole Agents—118 Jasper West.

### ALTA. CENTRAL FIGHTING C.N.R.

Delegation From Red Deer Saw  
Premier Sifton and Objected  
to Route

IS TOO CLOSE TO A. C. R.

Same Fight As Before Legisla-  
ture But Continued today.

C. N. R. Asks Premier to  
Approve Plans

Before Premier Sifton, as minister of railways, on the province, the Canadian Northern Railway and the Alberta Central Railway, are today fighting for the right of prior location, the line between Stewart and Rocky Mountain house, towards the Brazen coal fields.

This is the same fight between the two companies as was waged before the railway committee of the legislature several years ago, when the Canadian Northern, under the name of the Canadian Northern Western, was strong in the province and wanted to build their line from Sifton to the Brazen.

It is not likely that the same fight will be carried on by the legislature, but the C.N.R. will carry the case against Pablo further. The real foundation of the difficulty in the case is believed to be a feeling of jealousy that was roused over the fact that Pablo had made a deal with the Canadian government.

## UNION LEAGUE MANAGERS ARE SIGNING-UP PLAYERS

Battle, Dec. 20.—For the time being the managers of the Union Association of baseball clubs have finished their business, and from now on about all those interested will be doing is signing players, arranging deals as to their terms and getting ready for the hard campaign of the summer of 1911. Yesterday there was a meeting of Messrs. Lucas, Thiel, Reed, and McCloskey perfecting such arrangements that were not attended to at the session of the evening before, when much time was spent in adopting a constitution, posing for a team photo, and the like. Today Mr. Thiel will leave for Salt Lake City, where he will be busy overseeing the erecting of his plant, and Mr. Reed has gone to Cat Falls, there to take on his duties as the holder of that franchise. Reed is a baseball man from his toes up and believes in getting an early start. He is a hustler, and Great Falls should

feel fortunate in securing such a man to handle the team in that city. Mr. Lucas, who has been suffering from a very sore ankle, will in a few days leave for Portland, where he will spend Christmas. After the holidays he will journey to Salt Lake, where he will probably make his headquarters most of the time, the city being the most centrally located for the transaction of business of the league. The next league meeting will be held there some time in January. McCloskey will of course remain here looking after the affairs of the Battle team. While the schedule meeting will not be held until some time in March, it has practically been decided to play about twenty weeks, opening in the south the latter part of April. An other innovation decided upon is both ladies and children's days each week in every city.

## BOWERY COLLINS WAS IN TROUBLE

Regina Police Magistrate Fined Him a Tenner for Flourishing a Revolver

What Edmonton baseball fan does not remember Bowery Collins of the Regina team? While the Tough Guy would never take a prize in a beauty show, having about two teeth in his head, and a very apparent limp, he was always a great favorite owing to his unflinching good humor.

Bowery, who has been wintering in Regina, was charged in the police court with drawing a revolver in an early morning restaurant brawl. Collins, who was defended by Arthur Smith, a well-known Regina fan, was let off with a ten dollar fine and a warning not to carry firearms again. Bowery pulled out a very original stunt when on the coaching lines in Calgary towards the end of the season. It was a cold day, players and umpire alike, trying their best to hurry up the game. During the early innings, the initial catch had been spoiled, and the straw with which it was stuffed protruded. Bowery thought a little fire would warm things up, so taking advantage of the umpire's back being turned, snatched a miniature bottle blazing the coaching box, as which he warned his hands. The roars of delight from the bleachers, aroused the curiosity of the umpire, and he made a bee-line for Bowery. It is said that the Bowener's attempt to beat out the straw with his cap before the hot cap could clap on a line was one of the funniest things in the history of the league. And Houtson was laughing so hard himself that he simply could not punish the culprit.

## THE HOT STOVE LEAGUE

As the days grow keen and chilly, and the winds all manner low, they gather round the hot stove and mune upon its glow. A briar pipe between their teeth, smoke rings up above. Oh, the winning plays that are pulled these days—around the old hot stove!

Then, ah, the dreams, the rosal dreams, the airy dreams that rise—The dreams of home run wallops, and the dreams of captured flies! The bleachers may be silent now, and the fans have ceased to rave, but just the same, they play their game—around the old hot stove.

What if their plays are built of smoke and laughed to scorn by men? They have but to light their pipe to play them o'er again. There are no duds in the Hot Stove League, every guy is a star, by jove. For every galoot slams the ball in the smoot—around the old hot stove. Ah, let them play their games in dreams, with never a fault or ball. With one-hand grabs and double plays and home runs with bases all. But what a corking team we'd have if we signed up every cove. And they all played ball like they do in the fall—around the old hot stove.

Perfectly Clean and Hygienic Cigar is just as essential to the Smoker's Health as Pure Food is to his existence

## ROYALS TOOK TWO FROM GRANITES

Scores Were Very Low In Senior League—Three Teams Bunched for First Place

The lowest scores registered to date in the Senior League, were put on last evening when the Royals took two out of three from the Granites. The pins seemed to be nailed to the alley, and perfect balls often resulted in a most difficult split, remaining. Many of these were negotiated, Grant doing some nice work, but the Royals also frequent and account for the low scores.

Dan Knott, 225, and Simonon, 202, were the only ones to get in the charmed circle.

The scores:

Smith	172	173	162	509
O'Meara	153	151	128	432
Knott	140	151	159	450
Grant	144	150	153	447
Granites	505	483	494	1482

The League Standings:

Smith	172	173	162	509
O'Meara	153	151	128	432
Knott	140	151	159	450
Grant	144	150	153	447

## WILLIE HOPPE IS MARRIED

Billiard Champion Ignores the Balk Rule and Elopes With a New York Maiden

Baltimore, Md., Dec. 20.—Willie Hoppe, the billiard expert, was married this afternoon at the cathedral to Miss Alice Walsh, only daughter of Thomas Walsh, a wealthy clothing merchant of New York. The ceremony was performed by Rev. P. C. Gavan, chancellor of the archdiocese of Baltimore.

The marriage was the culmination of an elopement, it being bitterly opposed by the father of the bride. The couple came to this city from New York, accompanied by Miss Mary Walsh, an intimate friend of Miss Walsh, and Hoppe's manager, B. L. Monk. A Baltimore friend was the only other witness to the ceremony. A necessary preliminary to a marriage under such conditions being the assent of the pastor of the bride, was obtained by telephone from New York by long distance telephone.

## OTTAWA CLUB INCOMPLETE

Have Brought the Kickers to Terms—Nobody Gets Over \$700—Renewed Lineup

Ottawa, Dec. 20.—The Ottawa Hockey Club after another day of excitement and hustling, announced tonight that it had completed its team. President D'Arcy McGee stating that the line-up would be as follows: Goal, Percy Lesieur, and Frankie Reenan; cover, Hamby Shore; rover, Bruce Kidpath; center, Marty Walsh; right wing, Albert Kerr; left wing, Horace Galt.

It is announced that the players' committee has in view two additional players, whose names the committee refuse to divulge.

The club has appointed Pele Green manager for another season, and will hold its first practice at the Arena tomorrow night. It is also understood the Bruce Stuart will either coach the team or take his old position as rover, and that Fred Lake will likewise come to terms with his club and play point again. In the event of Stuart playing the line-up will be as follows: Goal, Percy Lesieur, and Frankie Reenan; cover, Hamby Shore; rover, Bruce Kidpath; center, Marty Walsh; right wing, Albert Kerr; left wing, Horace Galt.

Y. M. C. A. WRESTLING CLUB

The Y. M. C. A. Wrestling Club has obtained commodious quarters in the frame building immediately west of the main building. The committee which had the arrangements in hand has worked to such good effect that the club will have its first class this evening when twenty or twenty-five mat artists will put on their initial tests. Honorary Instructor Jackson will be in attendance and will conduct the entire "test" as the mystery of the half nelson and the toe hold.

## AT THE THEATRES

### "THE COLLEGE WIDOW"

Last night was Theatre Night, for the students of the University of Alberta and Alberta College, the attraction being the College Widow, admirably acted by the Partello Stock Company and the Empires.

George Ade's famous travesty on college life at a freshwater college is true to life, every one of the case showing up to advantage. The theme of the play is woven about the rivalry of Bingham and Alway College for many years on the football gridiron. Billy Bolton, a star half back is destined for Bingham, but the Alway student, by enlisting the fascinating widow on their side, turns out with the team. A beautiful ruin by the recruit turns defeat into victory and he becomes the hero of the college. To cap everything he finds out that the widow had not been living with his young director, and everything ends merrily, even Bolton peer joining in the general hilarity.

Jack Westerman, as the star half back, was excellent while Miss Alice Kennedy showed to great advantage

as the Empires.

## HOW TOM BURNS GOT HIS START

When Not Fighting He was Carrying Around Groceries for a Few Meg Per Day

(Spokane Spokesman Review)

The retirement of Tommy Burns, former heavyweight champion, who has relatives in Spokane, and the hand Empire, recalls the fact that he really got his start in Seattle, September 16, 1904, when he fought and got down with Billy Woods, a protegee of Billy Dicks, now sporting editor of the Tacoma News, in 15 rounds.

He was born in Hanover, Canada, June 17, 1881, and commenced fighting in Detroit, Mich., ten years ago. So far as number of battles went, he was not a novice by any means when he came to Seattle, but about the only point made in talking about his record was that he fought a six-round draw with Mike Schreck in Milwaukee. The year before, however, Schreck had defeated Burns twice in ten-round bouts.

Burns surprised his fight with Woods and there were many who thought that he had been receiving the decision. He was lighting fast on his feet and many times made Woods appear weak in his rushing.

A Puzzle for Woods

Burns made many friends by his showing against Woods, but the call of the ring did not mean much to him. He was always on the lookout for honest work, and if he could get it he would take it. He was one of the best in the country. His love for the game finally gave him the bad knees which made him give up boxing. Burns' accidents will happen.

Burns can now look back on his life in Seattle with amusement, because he can write his check any day for \$5000; pretty good for a man who once gave up boxing to take care of his old man six years ago.

## FAMOUS MODELS BURNED

Louisville, Ky., Dec. 20.—The Louisville hat factory, where most of the hats used by league ball players have been made, was destroyed by fire Saturday night, and all the models from which were made the hats of the individual stars. Wagner, Chance, Cobb, LaJoie and others, were burned.

OXFORD 23; CAMBRIDGE 18

London, Dec. 20.—Oxford University defeated Cambridge University by a score of 23 to 18 in the annual rugby football match, played at Queen's Park.

Y. M. C. A. BOWLING PRIZE

The weekly prize for high score at the Y. M. C. A. bowling alleys was annexed by Harmer who hung up a total of 300. This score was rolled on Saturday night and displaced Grant, who had lead up to that time with 200.

Joe Castillon has a knack of bowling players' managers have fallen to get along with and Joe's scorecard is not pennant size for Joe in the Amateur association. The men who compared the flag for Joe last summer were recollections, it is said. If this is so he wants more of the same kind. Manager McGraw is quite anxious to get Pitcher Cammie of the Pirates for next year. If Barney Dreyfus is going to dispose of him, McGraw thinks that he can handle the twirler in such a way that he can win with him.

## "THE BIG FELLOW"

Grizzled old grey and fat and slow and collected John.

Stright from the heart you send it out. As straight from the shoulder end. You sent out the sleeping-drum clon. To the unexpected scene.

No trimmer you of the old kind, No weaver of weakened affections. No present use you affony to find. For the parings of molly cheese.

You stand alone for the virile punch. Of the apout with the soulful punch. And you don't come back like a sad den fart.

Warmed over again for lunch. You stand for the better part for fair. You can say though you make them white.

That the game was better when you were never before or since.

—Chicago Tribune.

Frank Alous, Pleasant, who was famous in sporting circles not long ago as quarter-back star of the Cascade Indians, has signed a contract with the Vancouver Canucks next season.

# HISTORY OF THE FIGHT BETWEEN ALBERTA AND THE CANADIAN PACIFIC

**SYDNEY B. WOODS, FORMERLY DEPUTY ATTORNEY-GENERAL OF ALBERTA, WHO HAS JUST RETURNED FROM ENGLAND AFTER APPEARING BEFORE THE PRIVY COUNCIL, BRINGS BACK ARGUMENTS PRESENTED BY BOTH THE PROVINCE AND RAILWAY COMPANY IN THE NOW FAMOUS LAND TAX CASE.**

The highest tribunal in the British Empire, the Privy Council of England, is shortly to decide whether the Province of Alberta has the right to tax lands of the Canadian Pacific Railway, granted to them by the Dominion Government under the C.P.R. Act of 1881. After concluding before the tribunal, the final argument on behalf of the province, in the case of the province of Alberta vs. the C.P.R., Sydney B. Woods, former deputy attorney-general of the province, has returned from England, and gives to the Capital an interesting history of the case.

The case was divided into two divisions, the smaller case depending upon the interpretation of the word "sold" in section 16 of the agreement between the Dominion and the C.P.R. This case was decided against the province after short deliberation. On the larger case, the question as to when the exemption of 20 years on C.P.R. lands commenced to run, judgment was reserved and will be handed down early in the new year.

The case was heard before the judicial committee of the Privy Council, which includes Lord McNaughton, Lord Murray, Lord Shaw, Lord Acheson, Lord Robson, Lord Atkinson and Lord Halsbury. Danckwerts, to take the reply instead of himself, which Mr. Woods did.

This now famous case, which, it is decided by the privy council in favor of the province, means millions of money in taxes to the province from the C.P.R. lands, and is instituted in the Alberta courts three years ago, by

Hon. C. W. Cross, then attorney-general of the province. When the Northwest Territories Government dropped the action, Hon. Mr. Cross decided to take it up on behalf of the province of Alberta, and his determination in fighting the case through may have the result of bringing hundreds of thousands of dollars annually to the provincial treasury.

The case was first decided by Hon. Justice Beetz, on Jan. 10th, 1908, against the province, and that decision was upheld by the supreme court on June 10, Jan. 21st, 1910. An order-in-council from the Imperial government was then procured by the province giving them the right to appeal direct to the Privy Council, and Mr. Woods set about the preparation of the case for the hearing before the Privy Council.

The smaller of the two cases argued before the Privy Council, was to decide whether certain lands of the C.P.R. had been sold in the meaning of section 16 of the C.P.R. Act. The railway company admitted that if these lands were sold, they were responsible for the taxes on them. The Privy Council decided that the lands were not sold.

Section 16 of the C.P.R. Act provides that all the lands of the company in the north west territories until they are either sold or occupied, shall be free from taxation for 20 years after the grant from the Crown thereof. The whole point at issue in the larger case, which includes the smaller case, is as to the interpretation of the clause "20 years after the grant from the Crown," as to the time when this 20 years commences to run.

The following are the reasons set forth by the provincial government why the judgment of the Alberta court should be reversed.

1. Because the lands in question have been sold within the meaning of Clause 16 of the said Contract, prior to the date when the first of the assessments sought to be recovered in this action was imposed, and the ex-

emption in the said clause therefore no longer applies to prevent them from being assessed for taxes.

2. Because the construction placed upon the word "sold" in Clause 16 of the Contract by the Supreme Court of Canada in the case of the Rural Municipality of Carleton Place v. The Canadian Pacific Railway Company is a true construction.

3. Because the Respondents, having by their own deed made provision for the payment by them of taxes assessed against the said lands, which taxes they were entitled to charge against the property so purchased, cannot now be heard to say that the property was not assessable.

4. Because upon a proper construction of Section 16 of the said Contract, the exemption from taxation of the land grant of the Company for twenty years from the grant thereof by the Crown ceases as soon as the payment of taxes thereupon, or on portions of it respectively, ceases to be a burden upon the Company; and, having ceased, the exemption does not reach by reason of any act of the Company in retaining dominion over such land. On the contrary, the Company retains dominion over such land subject to its liability to taxation.

The C.P.R. presented the following reasons why the judgment should be sustained:

1. Because upon the construction of Clause 16 of the Contract the lands in question were not subject to taxation during the years in question.

2. Because the period during which the lands in question were to be free from taxation, commenced to run from the date of the conveyance by letters patent from the Crown to the Respondent Company.

3. Because the Act and the Contract do not operate to transfer the land agreed to be granted to the Company as a subsidy but, contemplate a transfer in future from the Crown to the Respondent Company under a survey and appropriation by the Government and after inspection and selection by the Company.

4. Because the Contract contemplates a formal conveyance from the Crown of the land granted as a subsidy to the Respondent Company and the words in Clause 16 refer to that formal conveyance.

5. Because while the words used in the Contract when referring to the subsidy in land thereby agreed to be granted are "grant of land from the Government," whereas the words used in Clause 16 when referring to the land to which the period of exemption is to commence are "grant from the Crown" and must refer to the issue of letters patent.

6. Because it has always been the practice to issue letters patent in respect of the lands granted by the Respondent.

7. Because the form of the letters

patent, which has been in use from a time shortly after the Contract was made, shows that each parcel was to the land subsidy remained to the Government till the patent thereof was issued.

8. Because conveyances were necessary to pass the title in the said land to the Respondent Company.

9. Because the grant from the Crown referred to in Clause 16 of the Contract is not the same as the appropriation made by Clauses 9 and 11. 10. Because if it had been the intention of the Legislature that the lands were to pass to the Respondent without letters patent, special provisions would have been made, as was done in the case of the Hudson's Bay Company's lands by 42 Vic. c. 31, s. 21.

11. Because under the Contract the Respondent had to select 250,000 acres of land fairly for settlement, the greater part of which were in the North-West Territories, unimproved and unsurveyed. The work could not be speedily done, and it was not the intention of the parties that the period of freedom from taxation should be running prior to a time when inspection necessary before acceptance of the lands.

12. Because it is impossible to construe the words "grant from the Crown" in Clause 16 as referring to the time when the Respondent became entitled to obtain but did not in fact obtain a grant from the Crown.

13. Because the provisions of Clause 16 of the Contract as to selection by the Respondent Company of lands fairly fit for settlement (which selection many cases could not take place till long after the lands had been earned by the Company and identified by the Government survey) make it impossible to hold that the lands were granted within the meaning of Clause 16 and as when they were identified by the Government survey.

14. Because the judgments referred to in paragraph 25 of this case and the judgments of the Courts below in the present case were right and ought to be affirmed.

Cincinnati, O.—Dr. B. Merrill Rickels, a noted surgeon of this city, favors vivisection experiments upon convicts who give their consent, and proposes that they be rewarded with liberty in case they survive the experiments. "Vivisection is essential to rapid progress in medicine and surgery," said Dr. Rickels today. "What ever value the criminal possesses should be utilized to the best advantage."

## COMMERCIAL CO. IS INDEPENDANT

Will Not Combine With Other Cable Company—Last Hope of Competition

New York, Dec. 19.—Clarence H. MacKay, on being shown the announcement from London that the Western Union Telegraph Co., with two submarine cables form the United States to Europe, has now acquired control of the four submarine cables owned by the Anglo-American Telegraph Co., said:

"The only competition now left is the Commercial Cable Company on the ocean and the Postal Telegraph Company on the land. The Bell Telephone Co. has combined with our only competitor on the land, and with our competitor on the ocean. They have gotten together a vast combination and it is clear that if the public wants the postal Telegraph and Commercial cable, we shall not enter into any combination. Neither shall we sell out. We shall continue to compete and give the fastest service."

As I stated to the legislative committee in New York last winter, the Postal Telegraph company will be the last competitor of inland telegraphy. They would now add that the Commercial Cable company will be the last competitor in ocean cabling. When that competition ceases there will only be a choice between monopoly and government ownership."

DR. COOK IS SUED FOR \$16. Cincinnati, O.—Dr. Frederick A. Cook, alleged discoverer of the North Pole, has been sued by F. George Mohr, associate editor of the *Confessions Review*, for \$16, which Mohr alleged he paid for four tickets to hear Dr. Cook's lecture when he was in Cincinnati in the fall of 1909. Squire James S. Myers, before whom the suit was brought, has issued a writ for his constable to serve on Dr. Cook when the explorer returns. Mohr issued his action on misrepresentation by Dr. Cook.

THIS WEEK'S PRIZES

FARM HAND MILLION HEIR. New York.—Heir to the \$1,000,000 estate of his brother, a paper manufacturer, Patrick F. McCluskey, an Irish farm hand, arrived today on the Campania. John, the brother, founded his fortune on Greenwich real estate after leaving the farm years ago. He died a bachelor, and Ireland was searched for Patrick. When found, he was at work in a field. "You'll excuse me," he said to his informant, "but I have these tramps to put. When I finish the job I will be glad to hear the details."

Patrick says he has no idea of marrying.

## IS NOT PREPARED FOR HOSTILITIES

Regular Army of United States  
Is Inadequate and Militia  
Not Effective

### AT MERCY OF POWERS

Report of War Department Suppressed Owing to Fear of  
Business Depression

Washington, Dec. 20.—The United States is almost wholly unprepared for war, and the Atlantic, Pacific and Gulf coasts would be at the mercy of any of the powers should the war be declared. The regular army is inadequate, and the militia not effective.

This startling information was prepared by the War Department in answer to a resolution adopted by the House last session. The resolution was offered by Representative James McLaughlin of California and called on the Secretary of War to furnish the House with a detailed statement of the preparedness of the United States to repel a foreign invasion, protect our coast and to state the condition of the armed forces of the United States. This was carefully done by the War Department, and would have been forwarded to the House today but for the interference of Representative Tawney of Minnesota, chairman of the House Appropriations Committee. He learned of the war department's answer and, on one occasion, he asked the secretary to send the information to the house would be like sending a bomb. It would be a big stir, and might result in business depression. Congress he said, would largely ignore the army and navy. Members of the House say no time is to be lost in providing for an adequate naval defense, and that Congress will have to act at once.

## TOBACCO NOT ALWAYS BAD

Columbia University Professor Makes  
Famous Test—Injurious to the  
Young—Physical Well-Being of  
Mature Men Little Affected  
by Use.

New York.—The results of an investigation of the effects of smoking on students of Columbia university, which was made by Dr. George L. Miley, head of the Columbia gymnasium, have been made public in the Popular Science Monthly. They show that on the whole, those who smoke are not injured seriously, as is all. Miley's experiments on something more than 200 students, about 35 per cent. of whom smoked, showed that the physical and mental characteristics of the physical and mental characteristics of the students. He does not try to prevent them from smoking, but he does try to prevent them from smoking. He does not try to prevent them from smoking, but he does try to prevent them from smoking. He does not try to prevent them from smoking, but he does try to prevent them from smoking.

The average physical measurements of 145 students form the basis for a table of their development over a period of two years. Students who smoked gained about eight pounds in weight, against a gain of six pounds by seventy-seven nonsmokers.

Nonsmokers Lung Better.  
The same students made no increase of 1.2 centimeters in height for the smokers and 1.1 for the non-smokers. In lung capacity, however, the non-smokers surpassed the smokers, gaining .20 as against .08. In total strength the smokers were ahead again, however, having an increase of 103 units, as against 101.

"It appears from the tables," says Dr. Miley, "that there is no appreciable difference between the measurements of smokers and non-smokers in the matter of age, where the smokers are the older. The slight advantage in the average measurements of the smokers is undoubtedly due to the fact that they are eight months older. The slightly larger gain made by smokers in weight, height, and total strength during the first two years of college is really too small to have any significance."

In scholarship the non-smokers had a distinct advantage. The smokers averaged 80 per cent. in their studies of entrance, 62 per cent. during the first two years, and 7 per cent. of failures.

No Tobacco; Higher Scholarship.  
The non-smokers got 91 per cent. in their entrance examinations and 69 per cent. in their first two years in college, while only 4 per cent. were failures.

In this respect Dr. Miley thinks there is a distinct relation between smoking and scholarship. Of the same set of students, 47 per cent. of the smokers won places on easily academic teams, while only 27 per cent. of the non-smokers could get places. It was discovered that 50 per cent. of all the varsity athletes at Columbia were smokers, as compared with 52 per cent. of all students.

In conclusion Dr. Miley says: "All scientists are agreed that the use of tobacco is injurious to the health of parents, teachers, and physicians should strive earnestly against its use. There is no scientific evidence that the moderate use of tobacco by healthy, mature men produces any beneficial or injurious physical effects that can be measured."

## WIFE OF WAITER HEIR TO MILLIONS

Death of Grandfather Means Fortune to a 17-Year-Old Runaway Girl

### ELOPEMENT IS RECALLED

Created Tremendous sensation and  
Search for Pair Was Made  
All Over

Philadelphia, Dec. 20.—Roberta Buist of Janon, the 17-year-old girl who caused a country-wide sensation a year ago by running off with a hotel waiter is today an heiress to millions through the death of her grandfather, Robert the Buist, the millionaire steel man.

Buist's fortune is believed to reach \$100,000 and Miss de Janon it is said will receive most of the estate under the will.

Miss Buist's death was caused by an attack of pneumonia, but it is believed that the expectation of the girl greatly hastened his end.

Although Miss de Janon always made her home with her grandfather in Philadelphia, her father, Ferdinand de Janon, a broker, lives in this city at No. 21 East Twenty-first street. His wife, who is dead, was the daughter of Mr. Buist.

Relations are strained  
After the elopement the relations between father and daughter were strained and have remained so.

On Dec. 3 last Miss de Janon ran away with Frederick Colman, a waiter employed in the Bellevue hotel, where she and her grandfather had an apartment. The elopement caused a tremendous sensation in all the big cities of the east. Finally the couple were caught in a Chicago hotel, where they were living as father and daughter.

Colman was arrested on a technical charge of kidnapping, but the case against him was dropped on May 11 last, when the grand jury in Philadelphia refused to indict him.

Robert de Janon is in California under charge of a governor.

## PIG PINED AWAY; HATED BUCK SHOT

And Court Case Results—Charles  
Allison Charged With Injuring  
Henry Jennet's Pig

"Pigs is pigs" was the theme of the case in the district court this morning in which Charles Allison was charged with unlawfully injuring one black sow, the property of Henry Jennet of North Hill.

The defence claimed that Mr. Jennet's porkers were of a roving nature, their special delight being to take snips at Mr. Allison's grain stacks. On the other hand, Mrs. Jennet contended that they were of perfectly good habits and would scorn to take anything that did not belong to them.

One day the porcine army, consisting of the black sow and two red relatives set jauntily forth for a little stroll, but what a difference when they returned. The leader was plentifully besprinkled with buck shot while her two associates also seemed to be in trouble.

Mr. Jennet claimed on the witness stand that Mr. Allison admitted having shot the big sow.

For a week the sow, which weighed about 150 lbs., lay pined away, evidenced no appetite for the varied delicacies dished to the hearts of pigs and refused to show any interest in separator milk. In addition a litter of five pigs was prematurely born.

Injury to dumb animals is a serious offence and is punishable with a heavy penalty but there seems to be some doubt whether the sow was seriously damaged by Allison or not. The case is being heard this afternoon.

## CONNECT REGINA WITH G.T.P. IN 1911

D. F. McArthur, Big Railroad  
Contractor, Who Is In City,  
Makes Prediction

D. F. McArthur, one of the biggest railroad contractors in the west, who is building the Regina branch of the Grand Trunk Pacific, is in the city today a guest at the Kind Edward.

Mr. McArthur's guests completed 100 miles of the Regina branch of the G.T.P., north of Regina this summer. They also built 70 miles of the G.T.P. south from Regina towards the international boundary.

Mr. McArthur stated that the branch line would be completed into Regina next year. The grading gangs are still at work on the line.

Mr. McArthur also holds a huge irrigation contract in the south of the province, south east of Calgary, and has just completed the construction of seventy miles of irrigation ditch in that section of the country.

Mr. McArthur at one time was figuring on contracts on the Alberta and Great Waterways railway, and last summer made a trip over a large portion of the road between Edmonton and Lac La Biche.

### \$100 FOR SIXTH CHILD.

Paris.—M. A. Renault, who died recently at Houdan, a little town in the department of Seine-et-Oise, left \$2,000 to the local authorities. By a clause in his will he also stipulated that in order to be of race suicide, a present of \$1,000 should be given to every husband of every woman living in Houdan who gives birth to a sixth child.

## WOLVES ATE BODY OF CONTRACTOR KEITH

(Continued from Page One).  
to Ogema to await instructions from headquarters at Regina.

The articles of clothing found consist of a pair of trousers, coat and waistcoat. From the collar of the coat down on the left side the garments are very much blood stained and are evidently the result of foul play. But comparatively little money was found in the pockets, and the former report to the effect that the missing man had a large sum of money on his person is thought to be groundless. The money said to have been in Keith's possession and his person is safely deposited in the forward branch of the B.N.A. bank. Upon the discovery of the articles the missing man's clerk was taken to the shack for the purpose of identifying the clothes which he did absolutely. The articles, according to the clerk were the property of the man Keith.

Body Found  
The body was found in the Dirt Hills, some forty miles south of Yellow Grass. The police theory is that Keith deliberately journeyed into that desolate section of the country and ended his own life. An inquest was commenced yesterday, but was adjourned.

## TWO YEARS MORE TO FINISH SURVEY

Will Take That Long to Complete Survey of Saskatchewan River

It will require two years more to complete the surveys of the Saskatchewan river, which are necessary for the undertaking of the work of making the river navigable from Edmonton to the mouth of the river.

This was the statement made this morning to the Capital by L. R. Volney, the engineer in charge of the work, who is residing in Edmonton at present.

"The surveys are not nearly complete," said Mr. Volney. "The surveys made last summer were only in the nature of reconnaissance work, and the detailed surveys will now have to be undertaken. It will be at least two years before they will be complete."

Mr. Volney has submitted an estimate to the department of surveys, of \$25,000 to cover next year's work.

## WINNIPEG CAR STRIKE

Winnipeg, Dec. 19.—The first real disturbance, since the opening of the street railway strike in this city, occurred yesterday afternoon at five o'clock when 200 strikers attacked the operators of thirteen cars who had been sent to the C.P.R. by the city.

The company states that 200 strike-breakers are now enroute to the city from Montreal and that upon their arrival all of the cars in the city will be again in operation.

## ROYAL CHECK TO WIDOW

Alfonso Remembers Woman Whose  
Husband Died Saving Him

Paris.—King Alfonso has just sent a present to the widow of a Polish policeman, which recalls the blood shed in the Rue de Rohan during his first visit to Paris. One of the policemen, it may be remembered, was killed at the time by a fall from his horse. He died recently, after retiring from the service, and some one sent a cutting from a newspaper reporting the ex-policeman's death to King Alfonso. He was moved to the point of sending it through his private secretary, and enclosed a cheque for the widow.

## BOY IN COURT HITS ACCUSER

Leaps Upon Witness Swearing He  
Will Kill Him; Is Restrained by  
Attaches

San Francisco.—Jimmie Alvarado, standing in the juvenile Court today, under sentence to one Reformatory, jumped toward Pedro Lopez, an accused witness, and struck him viciously in the face, knocking him unconscious. The fifteen-year-old boy lay for over an hour before restoratives were effective. Part of the time the boy was held by the court and swore that he would kill Lopez.

The attack occurred after Judge Wilbur had pronounced sentence on Alvarado, restraining him in the reformatory until next age. Lopez gave the testimony which provoked the sentence, Alvarado being called to answer for an assault committed on Lopez. Alvarado, older and stronger, glared at Lopez as he told his story, and made a menacing gesture as he rose to receive his sentence.

Judge Wilbur had not concluded the instructions when the boy leaped on his enemy. He struck with fury and when Lopez lay on the floor stood above him, swearing he would kill him as soon as released from the reformatory.

The attaches of the court fought with Alvarado for several minutes before he could be taken from the room and sent to the detention house. His record includes time served at the Parental School, the reformatory at Santa Ana and the Detention Home.

Why not books for Xmas? See Douglas Cox's immense display of gift editions.

## MAY CONTROL GRAIN MARKET

American Group of Financiers May Pour Their  
Gold into Russia

### VISIT OF HAMMOND

Plan Combines Building Grain Depositories, New Railroads and  
Modern Farming Methods

St. Petersburg, Dec. 20.—The Americanization of Russia's commercial, industrial and agricultural development, and the co-operation of the United States and the Muscovite empire to control the world's grain markets constituted a gigantic international plan that is in the making.

The most powerful group of financiers in the world stand ready to pour their gold into Russia to develop the country after American standards if the report which John Hays Hammond, the American mining and business expert, who is making an investigation of Russian possibilities is favorable.

Excitement in Bourse.  
This news became current today for the first time and created a great deal of excitement on the Bourse.

The plan combines the building of vast new railways and elevators and the establishment of manufacturing to turn out agricultural implements. New railways will be built and such lines established and practical farming encouraged.

Endorsed by Financiers.  
This stupendous undertaking has the endorsement of a coterie of American millionaires who have their eyes on the rich resources of Russia. It is said that the elaborate program will include surveys to develop the work, which includes the building of mines and the development of the rich mineral fields in the mountain districts. Mr. Hammond is regarded the keenest mining expert in the world today.

Storing of the Crops.  
The Russians have lacked both method and facilities for storing their grain and food products. As a consequence each season's crop has soon been exhausted and untoward weather has ruined the harvests which have been the curse of northern Europe.

With the construction of depositories and encouragement of crops it is expected that America and Russia, thanks to United States gold, will be able to supply the world with the grain supply constantly regulated.

## POOR STARVE IF RICH SAVE

Proprietor of St. Regis Hotel Declares  
Those Who Have Must Spend or  
See Hard Times Come.

New York.—"It is the clamor of the rich for luxury that makes every country great industrially by endeavoring to save, the well-to-do classes of the nation do that nation an injury. These people are the cause of the hard times which are now being experienced, where is the money coming from the advancement of industry? It is the money which is being saved by the rich. Take care against crying trouble, or trouble will come."

These words were spoken by Mr. Al. Haan's observations on the business conditions of the country. Mr. Haan is the head of one of the greatest importing houses in the city. He is proprietor of the St. Regis hotel, and is fitted to judge whether conditions denote prosperity or not. He believes, that despite high prices, the country has never been more prosperous or held brighter prospects for the future than now.

"The constant advocating of saving, the outcry against the high cost of living, is not right. Commodities are dear or cheap according to the supply or demand. Saving is all right at times, but if it becomes too general it will bring hard times."

"If everybody saves, what will become of industry? With no demand for products what will become of the thousands who make these products? Money must be kept in circulation."

"The rich should not save. The poor are obliged to. If all save, there will be stagnation in industry. Let us look back to history and see what industry did for France a few hundred years ago. France would never be as rich and would never have such a perfected industry today if the people of that period had not been spenders."

Through their desire to live they created their grand industries, and have built them up so that now the whole world is clamoring for their merchandise. The clamor of the rich creates perfection in industry."

AWARDED \$9,000 FOR LIBEL  
Collier's Weekly Obtains Verdict Said  
to Be Record Against Postum  
Cereal Company

New York.—A jury in the State Supreme court returned a verdict of \$9,000 in a suit brought by Robert J. Collier against the Postum Cereal Co. because the latter printed an advertisement in its sixty newspapers in New York saying that Collier's Weekly had printed an article intimating that its product because the defendant had refused to advertise in Collier's. James W. O'Connell counsel for Collier said the verdict is the largest for libel ever returned in this country. A suit for \$9,000 damages was filed brought by the Postum company against Collier's is pending.

### HELD FAIR AT LESSER SLAVE

#### First Annual Fall Fair Was Big Success Many Were There

Two hundred miles north of Edmonton, at Lesser Slave Lake, formerly one of the earliest outposts of the Hudson Bay company, the first agricultural exhibition was held on October 21st, last, under the auspices of the newly organized agricultural society. The exhibition was modern in every respect. It was not limited to grains, but vegetables of all kinds, even preserved fruits, found their way into the exhibits, and a real up-to-the-minute fair was held. The fair demonstrated at least one fact, that vegetables can be grown in Edmonton's hinterland, at least fully as well as at any other point in the province, for the report of the fair gives a long list of good sized vegetables, of all classes. The following is the report of the fair, sent to the Capital by the secretary.

High Prairie, Alta., Nov. 10th 1919.

The Lesser Slave Lake Agricultural society held its first annual exhibition here, October 21st, on the park like grounds in the vicinity of the Prairie River schoolhouse.

Following are the prize winners:

**Heavy Draught.**

Stallion—3 years and over, 1st, Joseph F. Ferguson; 2nd, Roger Ferguson.

Stallion—2 years, 1st, Wm. Lesage; 2nd, Colin Chioskeper.

Stallion—1 year, 1st, Roger Ferguson.

Breed mare with foal—1st, Guy Rogers; 2nd, Wm. Lesage.

Filly or gelding—any age, 1st, D. S. Hayden.

Filly or gelding—2 years, 1st, D. S. Hayden; 2nd, Isak Frikson; 3rd, Oliver Travers.

Foal—colt or filly, 1st, Wm. Lesage.

Team in wagon—1st, D. S. Hayden.

**General Purpose.**

Stallion—3 years and over, 1st, Daniel Ferguson; 2nd, Roger Ferguson.

Mare with foal—1st, Wm. Lesage; 2nd, Jos. F. Ferguson; 3rd, H. B. Becker.

Mare or gelding—any age, 1st, Louis John; 2nd, Louis John; 3rd, Chas. Travers.

Filly or gelding—2 years, 1st, Guy Rogers; 2nd, Guy Rogers; 3rd, Guy Rogers.

Filly or gelding—1 year, 1st, Wm. Lesage; 2nd, Wm. Lesage; 3rd, A. McDonald.

Team in wagon—1st, Louis John;

2nd, D. F. Stewart; 3rd, D. S. Hayden.

**GEORGE ED. MARTIN.**

Sec. L.S.L. Agricultural Society.

\*\*\*\*\*

AT THE THEATRES.

\*\*\*\*\*

AT THE EMPIRE

\*\*\*\*\*

"The College Widow" the greatest of the great college plays, as presented at the Empire Theatre last evening, certainly was a revelation to every one of the large audience. "The College Widow" written by one of the best comedians, namely Geo. Ade, outdone himself when he wrote this college comedy. Miss Alice Kennedy as the Widow, a nick name given to her by the students again proved her wonderful versatility as a thorough actress. Jack Westernman as Billy Bolton, the crack half back, who was taken from another college, through the charms of the Widow, winning the game for the weakest team, portrayed the part just the same, as though he were playing on his team, when he was a well known football player in private life, before entering the theatrical profession. Edwin Vail the new, and already popular leading man, as the College college, played his part as he always does, to

perfection, but not the least, the Eskimos Rugby team were there strong, and will be there at every performance of "The College Widow," being a feature of the play. "The College Widow" will be repeated tonight, tomorrow afternoon and tomorrow night for the last time. "Carmen," Olga Nethersole's version will be the offering Thursday, Friday, Saturday afternoon and night. A thing not to be overlooked was the splendid attendance of the Alberta University, and Alberta College.

**LONDONER WITHOUT MEMORY MAY GET ONE**

Puzzled Authorities Recognized Youth as That of a Montreal Spectator by Portrait.

Montreal.—There is reason to believe that the young man found wandering aimlessly about London, England, his memory completely lost, is the same youth who a few months ago got letters at the Montreal postoffice addressed to R. W. Leedem. On the receipt of a photo from London of the supposed J. E. Drexel of New York, a newspaper man visited hotels, restaurants and the postoffice today, and the picture was readily identified as that of Leedem.

The most positive identification came from the clerks in the general delivery department of the postoffice, where Leedem used to receive letters about three times a week, most of being from the United States and a few from England. He was well

known at the Windsor Hotel and spent a good deal of time and money at the bar. On St. James street he was a familiar figure from early in the present year, until about the end of July.

Employees of downtown restaurants recognized the photograph. They said Leedem was always alone. He dressed in ultra English style, and almost constantly wore one glove. This will be noticed in the photograph, taken since he was placed under the protection of the London authorities.

## PAGE EIGHT

The proprietors of the Royal and Queen's hotels, Saskatoon, were yesterday charged in police court with violating the license laws.

James J. Hill, president of the Great Northern, is now visiting Vancouver. He declined to state whether or not it was the intention of his company to make Vancouver a port of call for Oceanic liners.

Congressman Rainey has introduced a bill providing for an investigation into Theodore Roosevelt's railway expenses while he was president.

## FORGETS PAPER; LOSES BRIDE

Searsdale, N.Y., Young Man Misses His Marriage License—Then Ceremony is Halted—Tired of Delay, Young Woman Plunges Throat to Another.

New York—Momentary loss of memory has caused the loss of a bride to Welville White of Searsdale, N.Y.

White and Miss Lucy Daniels appeared at the law office of Judge Vincent de Paul Brennan in New Rochelle on Thursday night and announced that they wanted to be married. All was prepared and the ring was laid on the book when the judge asked for the license. White, much embarrassed, fumbled in his pocket, but the all-important document had been mislaid. Then he remembered that he had left it at home.

Judge Brennan, who recently became a bachelor, was sympathetic. He said he would wait an hour, and the couple went back to Searsdale. Thirty minutes later White telephoned that his mother in cleaning up the parlor had lighted a fire with a bundle of papers on the parlor table. Among them was the marriage license.

It was too late to get another and White said he and his sweetheart would be in New Rochelle in the morning with a new license. The judge sighed, locked his desk and went home.

The telephone rang again yesterday, and the judge was told that Frank L. Williams, a resident of the Bronx, had been waiting for Miss Daniels at her home when she returned on Thursday night.

After White had said good-night, it is declared Williams persuaded Miss Daniels to agree to marry him, promising to take better care of the marriage license.

President Comiskey of the Sox says he did not fear of the trade he was to make for Cashier Carigan and Fitch Woods of the Red Sox, but now what he has been informed of it will be very hard to go through with it.

## FOR BITS OF GOSSIP JUST ASK A BARBER

Some one has written that the barber is the "modern guardian of old ties and associates." He is that but something far more intimate also.

The barber is the confident and scandal monger of no mean standing. One day in the barber shop will prove to all who may wish to tell that line out of every ten men will tell all his family and other troubles to the barber, who shares him. It seems that the pressure of the cold and treacherous razor blade acts as a "confidence stimulator." The man in the chair fairly overflows with his troubles, be they small or large, disagreements with his "heartier" or the too strenuous attentions of some one who is trying to land him in the web of matrimony.

Any barber has in the back of his cranium enough of scandal gathered from the "chair" conversations of his customers to fill several books. Were the barber, as a class a man given to silence, it would not be so bad, but he isn't and his example in garrulity seems to be contagious.

## ABOUT TOWN

Skating on the open air Thistle rink this afternoon.

Frank Cade, the colored man who was charged with obtaining the sum of \$85 by false pretences, was dismissed in police court this morning.

Building permits to the amount of \$10,000 for several small dwellings, were taken out of the office of the building inspector yesterday afternoon.

Gilbert Berg picked a panny from his garden in Jasper last night. The delicate flower seemed to be thriving in the mild Edmonton weather.

In connection with the Lifer's Booth theatre tonight in McDougall's Church the high power lantern of the Temperance and Moral Reform League will be used in addition to Mr. Boel's own outfit.

A demand for more literature has come from the construction camps on the Grand Trunk Pacific grade. Literature may be left at the office of the railway on Third street, for shipment to the camps.

James Forbes and Harry Stiles appeared before Magistrate Cowan and pleaded guilty to creating a disturbance on the public streets. Sentence was reserved.

Four drunks appeared before the bench this morning and after giving their numerous reasons for being there, Magistrate Cowan sentenced them to \$5 and costs each or ten days in the local jail.

Mr. H. J. Armstrong, a member of the two separate groups of having assaulted William Armstrong, was adjourned until December 23rd.

The Edmonton Driving Club will hold a meeting in the Yale hotel this evening for the purpose of discussing plans for the winter amusements, and other matters. It is understood that some of the members are desirous of holding a race meet on New Year's Day.

According to the assessor's interpretation of the charter, any resident who applies to be put on the list and who states that he is a homeowner, must pay the tax or the assessor would have no authority to include the applicant's name in the voters' list.

But very little new business is scheduled to come up before the city council at its regular meeting this evening. The Piddling report on the Grand Rapids power proposition will be discussed and will not get on the agenda. It is probable that the assessment committee, which was instructed to deal with the sewer submitted to the council by Assessor McMillan, will be discussed by the council staff of his department, until some time next week.

Mr. J. H. McMillan, the chairman of the committee, is out of the city and will not return until Saturday or Sunday.

The commissioners will hold a meeting on Wednesday afternoon at which the annual reports from the different departments will be discussed. It is expected that the estimates from the different departments will be completed by that time and all of these will also be taken up. It will take several days, however, to place the estimates in definite form.

There will be between 800 and 900 birds on exhibition at the annual exhibition of the Alberta and Twin Cities Poultry and Pigeon Association, in Edmonton the first week in January. This will be the largest poultry exhibition ever held in the city. The executive of the association will hold a meeting Wednesday evening to discuss the arrangements. A number of complaints have been registered against the city health department of late for allowing manure to be spread on the boulevards in the western part of the city. Dr. White, law stated to the Capital this morning that he did not see an obvious authority the manure had been placed on the boulevards, but expressed the opinion that it would not do any harm.

For the purpose of completing the installation of the Pincus system of gas lighting in the kitchen of the Canadian Northern head end Grand Trunk Pacific railway, A. C. Van Ness, representing the Pincus company, was in the city at present, a guest at the Alberta. The installation of this system of lighting on the cars was commenced some time ago, and is about completed. The company have an agency in Edmonton.

Albert Puffer, a University student who has been confined at the isolation hospital for several weeks with erysipelas, died this morning. He contracted a mild form of typhoid fever while in Saskatchewan, this being followed by erysipelas. While the development of the latter disease he was removed to the isolation from the city hospital, but he was unable to withstand the ravages of the typhoid germs although he had recovered from erysipelas.

The Farmer's Bank of Canada, whose first statement was issued in 1907, has closed its doors. The bank officials state that depositors will receive 100 cents on the dollar.

Sava Fedorenko, the political refugee from the Russian government has been trying for several months to extricate, has been released. It is probable, however, that the minions of the Czar will make one more attempt to secure extradition but on what grounds is unknown.

The ebbing tide was responsible for the beaching of the G.T.P. steamer Prince George opposite Prospect Point yesterday.

Work Will Soon Be Started on Sister City's New Post Office

## BUDGET OF 'SCONA NEWS

Rutherford School Is Now Completed and Ready to Be Occupied

(By Our Own Reporter)

Strathcona, Dec. 20—After two years of hope deferred the citizens will witness this week an actual start here. A sub-contractor for the basement excavation was let yesterday by the contractor, Wm. Garson, of Calgary, who is in the city for the purpose, and this work will be begun at once. Mr. Ebin Wilson who secured this part of the work also took on the delivery of 5000 yards of gravel and sand on the building site during the winter. The bulk of this work was the successful applicants for the supply of brick.

In connection with the Capital yesterday Mr. Garson said he is given eighteen months in the contract signed a few days ago by him in which the contractor, Wm. Garson, of Calgary, who is in the city for the purpose, and this work will be begun at once.

Mr. Ebin Wilson who secured this part of the work also took on the delivery of 5000 yards of gravel and sand on the building site during the winter. The bulk of this work was the successful applicants for the supply of brick.

Mr. A. W. Condon, an experienced contractor of this city, will probably receive the appointment of government inspector of the construction work.

Rutherford School Ready. The new school house erected by the city trustees across Mill Creek at a cost of about \$1500 during the last week of the year, is now ready for occupancy. Contractor Deitz is this week adding a few finishing touches to the interior of the building after which it will be at the disposal of the school board.

The building, which has been erected on the site of the old A. C. Rutherford school, will probably be opened about the new year. The grounds and building are splendidly situated and the school is equipped with all up-to-date improvements. With the opening of a third new school at Waterdale the new year will find the list of new schools increased to three. The separate school bringing the total up to eight.

Local Lines. The spring-like weather brought out the "no game" sign at the curling rink last night and the rink was closed for a week. A practice of the rink was covered with water and the rink was closed for a week.

## THIS EDITOR COULD SHOOT

Rocklake, N. D., Dec. 20—George Diggins has a bullet hole in his lung and Charles Bills one in his neck as the result of the marksmanship of Editor Treadwell of the Rock Lake "Ripple." The editor is in jail at Rock Lake awaiting the result of the injuries of the two men. The trouble grew out of the fact that there was some whiskey in the newspaper office, and it is charged that while Treadwell was absent Diggins secured his keys, entered the office and carried the liquor away.

## WITH THE COMMISSIONERS

The commissioners yesterday spent several hours in going over the annual report and providing the Evans Commission with the press of other business the reports were not all considered.

The city engineer reported that the Jasper Avenue bridge had been completed and providing the Evans Commission with the press of other business the reports were not all considered.
